

Trade Journal: Deriv Account.

15 August 2025.

Jump to Index

- * **Confluence:** Being patient enough to allow for factors that move price to align such as momentum shifts (sweep) or liquidity taps (grabs).
 - * **Point of Interest:** factors that move price in synthetic indices are prices' nature but they can be loss leading if not executed at the highly reactive levels. Such as PDA, FVG, and O.B.
 - * **AI Dealing Range:** An area where large pools of liquidity ^(sweep) were previously distributed after a manipulation (trap) of accumulated ^{liquidity} orders.
- Confluence & Points of Interest are more useful in a dealing range.
- ① Price is seeking Balance. ② Price exposes a Bias
- Here's How It Looks on Chart:

81.3600 L41,169.7800 C41,215.3100 -42.2900 (-0.10%)
